PRESENTATION

Having progressed through engineering offices, a strategic shift became essential. As a developer today, my passion has grown even stronger, fueled by a tremendous eagerness to learn and share knowledge like never before. My diverse journey has presented me with numerous challenges, enhancing my ability to analyze and solve problems.

SKILLS:

Python, Javascript (TS).

Node, React, Django, Flask

PostgreSQL, MongoDB.

Pytest, Mocker, Selenium.

Locust , Sentry.

Jupyter Notebook, Git, Postman.

Docker, GitLab-Ci, CircleCi,

Nginx, AWS, Linux

PROJETS:

Camping Reservations App

Competitive Pricing Monitoring

Stock Portfolio Profit Maximization

Book Review Platform

Collaborative Project Management

Swiss Pairing Fair Matchup

.

CERTIFICATION:

IBM Introduction to DevOps

AWS Re/Start Program

AWS Practitioner (in progress)

Scientific Computing Python

Kaspersky Security

WORK EXPERIENCE:

LEMON — Paris, FR
Software Developer — 2022-2023
- Built APIs Development Django and node served for (Ticketing, Content Management, pairing algorithms)
- Prototyping & Interface Design
- Interface Integration (HTML, CSS, Native JS, React)
- Testing & Performance Improvement
- CI/CD Pipeline Implementation

DROPBOX — Athènes, GR
Support & Incident Management — 2017-2018
- Execution of comprehensive tests
- In-depth analysis of traces and logs
- Diagnosing issues and applying fixes
- Drafting technical and functional documentation

KASPERSKY — Athènes, GR
Support & Incident Management — 2015-2017
- Log analysis, scripting for issue resolution, process automation
- Performing remote interventions
- Drafting technical procedures
- Onboarding and mentoring new team members

QUIETALIS — Paris, FR
Studies and Projects Manager — 2020-2022
- Technical and financial studies
- Preparation of tender response documents
- Intervention planning
- Monitoring, developing, and providing technical plans and documents
- Resolving technical challenges related to project feasibility

HENCO — Paris, FR
Engineering Office Manager — 2018-2020
- CAD design
- Compilation of financial and technical documentation for bids
- Client support and technical follow-up

EDUCATION:

AWS RE/START PROGRAM CLOUD FOUNDATIONS — 2024
Amazon Web Service, Cloud Practitioner

SOFTWARE DEVELOPER — 2023
OpenClassromms,

BACHELOR OF SCIENCE IN TECHNICAL SCIENCES — 2007
